

CLASSIC SECURITY

2024 European Summit
October 15-17, 2024 | Athens, Greece

Two Weeks Away!

Get Ready to Connect!

It's almost time to gather in Athens, Greece and reunite with colleagues and create new partnerships.

Here are some things to do before you arrive. On October 7th, download the summit app and start selecting sessions you would like to attend; message colleagues you would like to connect with, and more.

If you have been waiting for the last minute here are the links you will need.

FALL AMERICAS SUMMIT

THREAT CATCHER

Catching & sharing for the good of all.

2024 Health-ISAC
Fall Americas Summit
December 2-6, 2024
Phoenix, AZ

Early Bird Registration
Ends October 31st

Early Bird rate ends Nov 1st so give yourself a treat and [register](#) by October 31st!

Pre-Summit workshops - 2 of 3 workshops are sold out already. Don't miss out.

Keynote Carey Lorenz

As the first female F-14 Tomcat Fighter Pilot in the U.S. Navy, Lorenz is used to working in fast moving, dynamic environments, where inconsistent execution can generate catastrophic results. Her mastery of the fundamentals of winning under pressure, reducing errors and overcoming obstacles can help your team triumph in this high-risk, timecrunched world. Hear more in the [Summit teaser video](#).

2025 APAC SUMMIT

2025 Health-ISAC APAC Summit

March 18-20, 2025 | Kuala Lumpur, Malaysia

[Submit](#) a topic to be reviewed by the Member-led Content Committee. Selected papers garner **FREE** registration.

New Cross-Sector Group Hopes to Break the Barriers in Information Sharing

Health-ISAC led the charge to create a cross-sector working group to address common barriers experienced in information sharing. The ISAC held a workshop in Washington, DC, on June 18 to discuss strategies to address real and perceived challenges that often lead legal counsel to advise companies not to share information about an incident or other cybersecurity issues.

The Breaking the Barriers initiative hopes to bring this discussion to C-suites across all critical infrastructure organizations for awareness of the benefits of information sharing and to change the decision to share from a purely legal perspective to one that encompasses business risks. Interested email contact@h-isac.org

Deliverables to Come:

- Sector agnostic information sharing model contract language,
- Information sharing guidance for all organizations, and
- Primer outlining existing information-sharing laws and legal protections.

Spotlight Webinar

Unmasking Impersonation Domains: A Hands-On Workshop

Building upon the insights shared at the Health-ISAC Spring Summit, this interactive webinar provides a practical, hands-on workshop on identifying and mitigating impersonation domains. These domains, a common tactic used by attackers for phishing and other malicious activities, pose a significant threat to organizations. [Learn more.](#)

Asset Visibility, Protection and Security for Medical IoT

Please welcome Armis, the newest Community Services provider!

Armis specializes in protecting organizations from cyber attacks through unified asset intelligence platforms and protects all managed and unmanaged IoT devices, with a particular focus on Medical IoT (MIoT) devices.

Members can receive a 10% discount on the ArmisCentrix™ Platform, which protects the entire attack surface and manages an organization's cyber risk exposure in real time.

Learn more in the Member Portal or go to <https://h-isac.org/community-services-2/>.
